Saunders

StrongHER

The StrongHER Nutrition Philosophy

Nourishment that supports your hormones, metabolism, and real-life schedule.

Food is not about perfection — it's about support.

Your body gets stronger when it feels safe.

When we nourish instead of restrict, the body responds with:

- More stable energy
- Better sleep
- Improved digestion
- A calmer nervous system
- Natural fat loss over time

You don't have to count every calorie or cut out everything you love.
You simply need consistent nourishment built on:

The StrongHER Fundamentals:

1. Protein in every meal to support muscle + metabolism
2. Slow, steady carbs for energy and hormone balance
3. Healthy fats for mood + fullness
4. Lots of fruits & veggies for micronutrients + digestion
5. Hydration first — your body thrives when it's supported

This plan is built to fit your life, not take it over.

We keep it simple, doable, and repeatable.

How to Turn Your Macros Into Real Meals (Without Tracking)

*A simple visual method you can use anywhere —
at home, restaurants, or on busy days.*

- Start with **protein** $\approx$ **palm-sized** (20–40g).
- Add **slow carbs** $\approx$ **cupped hand** ($\frac{1}{2}$ –1 cup cooked).
- Add **healthy fat** $\approx$ **thumb** (1–2 tbsp oils/nut butters or $\frac{1}{4}$ avocado).
- Fill the rest of the plate with **veggies + fruit**.
- If you're still hungry 10–15 mins later, add **a little more slow carbs or protein**.
- If energy dips mid-afternoon, add a **protein + fruit snack**.

Mini Table:

Breakfast: Eggs + berries + small potatoes / oats + Greek yogurt + fruit
Lunch: Chicken + rice + salad / Steak + wild rice + fruit
Dinner: Salmon + veggies + potatoes / Turkey tacos + salsa + avocado

Close enough beats perfect. Eat, assess energy, adjust.

The StrongHER Daily Plate Method

A simple way to build balanced meals without tracking, measuring, or stressing.

Your meals don't need to be perfect — they just need to be supportive.

We use a visual approach so you can eat confidently at home, on the go, or with your family.

StrongHER Daily Meal Examples

Simple, supportive meal ideas that fit real life.

Breakfast

- Protein Smoothie (Greek yogurt, berries, spinach, chia, almond butter)
- Scrambled Eggs Plate (eggs, avocado, fruit, roasted potatoes)
- Yogurt Bowl (Greek yogurt, blueberries, granola drizzle of honey)

Lunch

- Chicken + Rice Bowl (mixed veggies on the side)
- Steak Plate (steak, roasted potatoes, side salad)
- Turkey Wrap + Fruit (turkey, hummus, spinach, fruit on the side)

Dinner

- Salmon + Veggies + Rice
- Beef or Turkey Stir Fry (mixed veggies)
- Chicken Tacos (salsa + avocado)

Snacks

- Fruit + nuts
- Greek yogurt cup
- Protein shake
- Carrots + hummus

You don't need more restriction.

You just need nourishment that supports your energy and hormones.

The StrongHER Grocery List

Simple staples that make meals supportive, balanced, and easy.

Protein

Chicken breast
Ground turkey
Steak
Salmon
Eggs
Greek yogurt

Slow Carbs

Jasmine or wild rice
Sweet potatoes
Oats
Beans / lentils
Quinoa (optional)

Veggies

Spinach
Broccoli
Green beans
Zucchini
Mixed greens / salad kits

Fruits

Blueberries
Strawberries
Grapes
Apples
Kiwi's

Healthy Fats

Avocado
Olive oil
Almond butter
Chia or flax seeds

You don't need more restriction — you just need nourishment that supports your energy.

The StrongHER Starter Grocery List (Simple + Budget-Friendly)

*Just buy these. Make the meals on the next page.
Repeat for 7 days.*

Protein (Pick 3 for the Week):

1. **Chicken breast or thighs** (family pack = cheapest)
2. **Ground turkey or ground beef** (look for sales)
3. **Eggs** or **Greek yogurt** (store brand)

Protein is non-negotiable — it keeps you full and tones your body.

Slow Carbs (Pick 3):

1. **Rice** (big bag jasmine, basmati, or long-grain)
2. **Potatoes** (white or sweet — cheapest carb on earth)
3. **Oats** (or frozen hash browns)

Carbs keep hormones stable + energy steady — no starving.

Veggies + Fruit (Pick 3):

1. **Frozen mixed veggies** or **steamable bags**
2. **Spinach** (bag), **carrots**, or **zucchini**
3. **Strawberries** or **apples** (both budget-friendly)

Frozen = cheaper, lasts longer, no waste.

Healthy Fats (Pick 3):

1. **Olive oil**
2. **Avocado** (optional — buy only if on sale)
3. **Peanut butter** or **almond butter**

Fats keep you full + support hormone balance.

The Simple 3×3 Grocery Starter List

Save Money • Reduce Decisions • Build Consistency Faster

The goal is to keep things **simple and repeatable**.

You don't need 40 ingredients, Pinterest recipes, or hours in the kitchen.

Just **pick 1 protein, 1 carb, 1 veggie, and 1 fat** and rotate.

This keeps costs low, reduces stress, and ensures you're fueling your body correctly.

This is your grocery foundation.

If you only bought these foods for the next 2–3 weeks, you'd already start transforming.

Proteins (Choose 1 per meal)

- Chicken Thighs or Chicken Breast
- Ground Beef or Ground Turkey
- Eggs (Super Budget Hero)

Aim for a palm-sized portion per meal.

Slow Carbs (Choose 1 per meal)

- Potatoes (white or sweet)
- Rice (white, jasmine, basmati)
- Oats (rolled or steel cut)

Carbs = stable energy, better mood, better workouts.

Veggies + Fruit (Choose 1–2 per meal)

- Spinach or Spring Mix
- Green Beans or Broccoli
- Berries (frozen or fresh — whichever is cheaper)

Color = nutrients. Frozen is just as healthy as fresh.

Healthy Fats (Use in small amounts)

- Olive Oil or Avocado Oil
- Avocado
- Nut Butter (PB Fit if you want lower calories)

Healthy fats help hormones + fullness.

Pro Tip: Buy **frozen veggies + family pack proteins** to save big.
Cook once, use for 2–3 days. Simple = sustainable.

This is your starter fuel system.

Keep it simple. Keep it repeatable. Your body (and your stress levels) will thank you.

The Simple 3×3 Grocery Starter List

Proteins	Slow Carbs	Veggies/Fruit	Healthy Fats
Chicken	Potatoes	Spinach	Olive Oil
Ground Beef	Rice	Green Beans	Avocado
Eggs	Oats	Berries	Nut Butter

Hydration + Hormone Balance Support

Simple daily practices that keep your metabolism steady, mood stable, and energy strong.

Your hormones are influenced by your **hydration, stress levels, sleep, and blood sugar balance**. When we support these systems, the body naturally feels safer — and fat loss becomes easier.

Hydration Guidelines

- Aim for **60–100 oz of water per day** (depending on your body size)
- Add a **pinch of sea salt** or use electrolytes 1–2x/day for better absorption
- Drink consistently throughout the day — not all at once

Signs you're hydrated:

Clearer thinking • Stable energy • Less cravings • Better workouts

Daily Hormone Support Habits

- **Eat every 3–4 hours** to keep blood sugar steady
- Include **protein + slow carbs + healthy fat** in each meal
- Get **5–15 minutes of sunlight in the morning**
- **Walk daily** to calm the nervous system
- Prioritize **7–9 hours of sleep**

When your body feels safe, it lets go — physically and emotionally.
Small, consistent nourishment > perfection.

You are supporting your body — not fighting it.

Your First-Week Game Plan

*Just focus on consistency — not perfection.
These reps build your foundation.*

Checklist (Mon–Sun):

- 🥤 60–100 oz water + pinch of sea salt 1–2×/day
- 🍴 3 balanced meals (protein + slow carbs + fat + veg/fruit)
- 🚶♀️ 20–30 min walk or light movement daily
- ☀️ 5–15 min morning light
- 😴 7–9 hrs sleep
- ✍️ Circle wins each day (not perfection)

*Maintenance days are wins. Fat-loss days come from
consistency, not punishment.*

You've Got This

You're not behind. Your body isn't broken.

Follow the simple reps:

water, protein, slow carbs, veggies/fruit, movement, sleep.

I'll keep it doable. You keep showing up. We'll stack wins together.

When You're Ready for More Support

You don't have to do this alone.

*If you ever want personalized guidance, accountability, and
coaching —
just reply "Ready" to this email.*

No pressure.

Just support, when you want it.

– Coach Josh
